Professional Summary

Passionate and results-driven Frontend Developer with 3 years of experience in creating user-friendly, dynamic, and responsive web applications. Proficient in HTML, CSS, JavaScript, React, and Figma, with a strong foundation in Data Structures and Algorithms. Adept at building and deploying websites that prioritize performance, usability, and aesthetics. Skilled in developing innovative solutions and collaborating with cross-functional teams to deliver high-quality projects.

Skills

- **Frontend Development:** HTML, CSS, JavaScript, React
 - **UI/UX Design Tools:** Figma
 - **Frameworks and Libraries:** React.js, Tailwind CSS
 - **Version Control:** Git, GitHub
 - **Programming Languages:** Python, C++, Java
 - **Problem-Solving:** Strong foundation in Data Structures and Algorithms
 - **Soft Skills:** Effective communication, team collaboration, project management
-

Professional Experience

Frontend Developer (Freelance)

July 2021 – Present

- Developed and deployed high-quality landing pages, chatbot integrations, and website clones of renowned companies.
- Designed and optimized user interfaces with a focus on responsiveness and accessibility.
- Created interactive games and user-friendly interfaces for diverse web applications.
- Collaborated with clients to gather requirements and deliver custom-tailored solutions, meeting deadlines effectively.

Programming Tutor

July 2021 – Present

- Delivered personalized programming lessons in C++, Python, and Java, emphasizing practical projects to enhance learning.
- Mentored over 50 students, ensuring their grasp of foundational and advanced programming concepts.
- Guided students through building projects like games, algorithms, and responsive web designs.

Member, UOBS Computing Society

2023 – Present

- Actively contributed to organizing and participating in tech-focused events, including coding competitions and workshops.
- Created instructional materials and guidelines for university-level coding challenges, fostering an engaging learning environment.

Projects

1. **Portfolio Website with AI Chatbot:** Designed and developed a professional portfolio website integrated with a custom AI chatbot using Botpress.

2. **VR Landing Page (Hydra):** Created an interactive and visually appealing VR-themed landing page.
 3. **Company Website Clones:** Successfully recreated user interfaces of popular company websites with precision and performance optimization.
 4. **Interactive Games:** Built dynamic, browser-based games that showcase advanced JavaScript concepts.
-

Education

Bachelor of Computer Science (3rd Semester)

University of Baltistan, Skardu

Intermediate

Public School and College Skardu

Matriculation

Army Public School Skardu

Certifications

- Advanced JavaScript Concepts
 - Responsive Web Design (freeCodeCamp)
 - Data Structures and Algorithms Specialization
-

Interests

- Innovative tech solutions and front-end development trends
- Engaging in volunteer work and event organization

- Exploring and developing cutting-edge projects like Brain-Computer Interfaces
